Target Coverage

Reference- MOK-W-2551

1. The evaluation of MGB-8484 given by ORE at the top of page 10 of reference memorandum which we discussed the other day - suggests a type of coverage which might be of value to Washington and to CAMLET.

2. Suppose we hire a good reporter, have him accredited through CAMLET and ostensibly work for C's paper. He could provide C with a good 90% of his take and could give us 100 %. We would pay his salary, plus travelling expenses. In return he would

1) Undertake all missions assigned by us (this should be helpful to ORE, especially if they indicate their interests);

2) Assist (wittingly or unwittingly) in the selection of sources.

3. Please answer to Karl and FBW.
